## WIRELESS TELECOMMUNICATIONS BUREAU SEEKS COMMENT ON PETITIONS FOR TEMPORARY WAIVER OF DEADLINE BY WHICH DIGITAL WIRELESS SYSTEMS MUST BE CAPABLE OF TRANSMITTING 911 CALLS FROM TTY DEVICES

CC DOCKET NO. 94-102

**Comments Due: April 8, 2002**

**Reply Comments Due: April 18, 2002**

In the *Fourth Report and Order* in the Enhanced 911 (E911) proceeding, the Commission established June 30, 2002, as the deadline by which digital wireless service providers must be capable of transmitting 911 calls using TTY devices.<sup>1</sup> The following small, rural wireless carriers have filed petitions for temporary waiver of this rule: Enterprise Wireless PCS, Illinois Valley Cellular RSA 2-I Partnership, Illinois Valley Cellular RSA 2-II Partnership, Illinois Valley Cellular RSA 2-III Partnership (collectively "IVC"), Missouri RSA No. 7 (d/b/a Mid-Missouri Cellular or "MMC"), and Public Service Cellular ("PSC"). The Wireless Telecommunications Bureau seeks comment on these petitions.

All of the petitioners are small, rural carriers providing Commercial Mobile Radio Service (CMRS) using Time Division Multiple Access (TDMA). The petitioners argue that present circumstances make compliance with the June 30, 2002, deadline unduly burdensome. Specifically, they point out that several major wireless carriers (including Cingular, AT&T, and US Cellular) have indicated their intention to migrate their TDMA deployments to other, non-compatible digital technology. The decisions of these carriers led to the announcements by virtually all major cellular infrastructure providers, including Nortel (the petitioners' infrastructure provider), of plans to cease development of new features and functionalities for their TDMA infrastructure equipment. The petitioners also point out that most handset providers have ceased development of new TDMA handsets and express doubt as to whether TDMA TTY-compatible handsets will be made commercially available. Further, they estimate that it will cost each system nearly two million dollars to make their current TDMA networks TTY-compatible.

The petitioners request a waiver of the June 30, 2002, final implementation deadline until December 31, 2003, to enable them to migrate to an alternate digital air interface and to implement TTY compatibility in their networks. The petitioners point out that a grant of their waivers would not preclude access to 911

See also 47 C.F.R. § 20.18(c) and accompanying note (2001). In addition, these carriers were to have obtained software and equipment necessary to implement this capability in their networks by December 31, 2001. *Fourth Report and Order*, 15 FCC Rcd at 25218. The petitioners have also requested a waiver of this deadline because of delays in the general release of the necessary Nortel software.

services by TTY devices in the meantime because those devices could still continue to be used with wireless telephones in the analog mode. The petitioners state that they will continue to provide the Commission with quarterly updates on the status of development and deployment throughout the waiver period, including a full disclosure of any requests for a TDMA TTY-compatible handsets received during the quarter.

Unless otherwise provided, requests for waiver of the Commission's Rules are subject to treatment by the Commission as restricted proceedings for *ex parte* purposes under Section 1.1208 of the Commission's Rules, 47 C.F.R. § 1.1208.
